

What You Need

- 2 paper cups (You can also use plastic cups or tins.)
- 2 paper clips
- 10–20 ft long string
- A sharp object to make a hole (a sharpened pencil, sewing needle or a skewer)

Action Time

1. Use a sharp object to punch a small hole through the centre of the base of each paper cup.
2. Draw one end of the string through the bottom of one cup. Tie a paper clip to the loose end of the string inside the cup, to keep it in place.
3. Thread the other end of the string through the second cup, and tie another paper clip inside the cup.

Ask an adult to help you make the holes.
